Walther League Conference

*** *** ***
The Walther League is an International Organization of about one thousand young people societies, united to do a common work.

The League has ten definite objects. Some of these are:

To assist in keeping the young people with the Church.

To promote systematic study of the Bible.

To assist in making well-informed, intelligent and efficient church workers.

To establish a hospice system for the welfare of fellow-Lutherans and others who are away from home.

To assist in increasing the love for our foreign mission work.

To foster Christian fellowship and sociability.

To encourage the support of charitable endeavors within the Lutheran Church.

To promote loyalty to the Christian home.

To help organize and maintain societies.

To unite all young people's societies within the Synodical Conference into one body, and thus to establish a closer outward union between them.

ALBERTA REGISTERED SEED GRAIN FOR SALE.

Registered and No. 1 Marquis Wheat,
Victory and Banner Oats,

at reasonable prices. HIGH GERMINATION,
clean and true to type.

On account of our supply being rather limited,
farmers should order early.

For prices and particulars apply to

W. J. STEPHEN, Field Crops Commissioner,

**Muir Lake Community
Concert and Dance
Friday, February 18th.**

LOCAL NEWS.

Mr Emil Baron, Edmonton, was a week-end visitor at the home of his parents, here.

Mrs Philip Baron, of Stony Plain was removed, last week, to an Edmonton hospital for treatment.

At the local Court, Friday, two men were before the bench charged with assault on J W Denton, and had their case adjourned till the following week.

Carl Mayer, the painter, has secured the contract for re-decorating the interior of the Royal Hotel.

Helge Anderson's famous Swedish Orchestra is billed to give a dance in Stony tomorrow evening, Feb. 18. Those who have heard these musicians speak highly of them.

Mr R. Speakman, who has been operating an implement shop and had the Star car agency here, has sold out his interests to Mr H Enders. Mr Speakman has secured lucrative employment in the City.

A deal is said to have been consummated last week whereby Mr John Schulz of Golden Spike acquired an interest in the former Government Experimental Farm in Stony, recently owned and operated by Mr Chas Schultz.

Tomorrow sees the opening session, in Stony Plain, of the winter conference of the combined Walther Leagues of British Columbia and Alberta. Among those who will attend the sessions are: Rev Bailey, of the International Walther League, who is making a special trip up from Chicago, to be present; Rev Dykman of Willowdale; Rev Mr Luke, of Calgary; Prof Rehwinkel, Edmonton; Rev Kuring of Brightview. A large number of lay delegates from the two provinces is expected to be present.

Stony's hockey players did not go to Duffield on Sunday, owing to the drifted roads, but contented themselves with a practice game at home.

The Battle of the Brooms was concluded last week at the local curling rink, the besoms going to the rink skipped by Geo Oppertshausser. With him were Miss Hyslop, Mrs Lory and H J Boettcher. Altho the brooms were but the "third" prizes in the mixed bonspiel, it turned out to be the most interesting and keenly contested. The other winners in the mixed bonspiel were: 1st prize, Mrs Wight, Mrs S C Elliott, Otto Oppertshausser, Jacob Miller skip; 2d prize, Mrs Oatway, Mrs G Oppertshausser, Louie Kowensky, Chas Schultz skip.

The Alberta Curling Ass'n held its tenth annual bonspiel last week, in Edmonton. The quartet from Stony was skipped by Muriel McKinlay, and made a good showing.

FOR SALE. 1 purebred Jersey Heifer, 10 days old. Apply Peter Odenbach.

"Worth its weight in gold" Says Ottawa Matron

Mme. Beatrice Charlebois could not hold pen to write. Nerves completely shattered, health ruined. Now alert, vigorous and strong, she gives praise to Tanlac

The two-year ordeal which she passed through before Tanlac came to her permanent relief, was recently described by Mme. Beatrice Charlebois, of 22 Rose St., Ottawa.

"What I endured that time could not be told," she said. "I was so weak I could hardly walk. My appetite was poor and my stomach gave me no end of trouble. Gas and pains would bring on fainting spells."

"My nerves were so completely shattered that I jumped in fright every time the doorbell rang. My hand trembled so that it could not hold the pen to write my name. Night after night I've gone without sleep, too nervous to lie still for even a few moments. Even my housework became too much for me."

"I tried all kinds of remedies in those two years, but can honestly say Tanlac gave me my first real relief. It built me up so that I've gained 11 lbs., eat and sleep fine and have nerves as

calm and steady as ever. Tanlac is worth its weight in gold. Build up your health on Tanlac, nature's own tonic made from roots, herbs and barks. Your druggist has. Over 52 million bottles sold.

Home Owners vs. Renters

Among the many interesting and valuable reports issued by the Dominion Bureau of Statistics, the one recently made public containing an analysis of home ownership in Canada based on the last Dominion census is most instructive. It is likewise of an encouraging character indicating, as it does, that a fairly high percentage of Canadians own their homes.

According to the figures presented, there are 2,901,512 families in Canada, and of this number 1,339,150 own their homes, as compared with 762,362 living in rented houses. In other words, 62 out of every 100 families own their homes. As is natural, and to be expected, the percentage of renters is much higher in the cities, towns and villages than in rural districts, the respective figures being: Rural home owners 75 1/2 per cent., to renters 24 1/2 per cent.; urban home owners 48 per cent., to urban home renters 52 per cent.

Little Prince Edward Island makes the best showing in the Dominion with 87 1/2 per cent. rural, and 56 1/2 per cent. urban home owners. This is an old settled portion of Canada and the population is, of course, small in comparison with the other provinces.

It will be especially gratifying to the people of the prairie provinces to learn that this never-ending portion of the Dominion makes a strong showing. Although a young country where the people are really only beginning to become established, and to which the majority of immigrants make their way, more families already own their homes than is the case in the older provinces. Saskatchewan, the third province in Canada in point of population, follows closely after P.E.I. with 83 out of every 100 rural families and 68 out of every 100 urban families owning their homes, as compared with, say Ontario, with 76 1/2 per cent. rural and 54 1/2 per cent. urban home owners.

Alberta comes a close second to Saskatchewan, 81 1/2 per cent. rural and 49 1/2 per cent. urban families being home owners. Manitoba shows 79 1/2 per cent. rural, and 47 1/2 per cent. urban home owning families.

The percentage of home owning families for all Canada would be much higher but for the fact that less than one-third of the families living in the cities and towns of Quebec own their homes. In Ontario, on the other hand, the artisans and workers in the big industrial centres appear to be purchasing homes rather than renting, the percentage of urban home owners in that province being, as already stated, 54 1/2, or the highest in the Dominion after P.E.I. and Saskatchewan, and almost equal to these two provinces.

Taken as a whole, these figures are gratifying in that they reveal Canadians as a home-loving and home-building people, in marked contrast to the manner in which the residents in the big United States cities are lived in blocks and apartment houses and dependent on restaurants, lunch counters and cafeterias. This home building characteristic of Canadians is reflected in the health of the people and the low death rate in this country as compared with other countries.

The only by in the element, so far as Western Canada is concerned, is found in the fact that building lots in most if not all our Western cities and larger towns are held at too high a price, thus acting as a deterrent to home building. In view of the vast vacant acreage in which these centres of population are located, and the ease with which they can be extended, if necessary, prevailing prices for vacant city and town lots are, in many instances, absurd. They are a relic of the speculation indulged in during "boom days."

Home building by young people about to be married should be widely encouraged. It makes for permanence and happiness in the home; it is a good investment from a purely economic standpoint, while paying indirect dividends in better health than living in an apartment or block. The town or city which encourages its citizens to build and own their homes is found to be more attractive, more substantial, more prosperous, than one where a large percentage of the residents are renters, moving about from house to house, and who can easily pull up stakes and depart for other scenes.

World's Smallest Seaplane

Brilliant Future Predicted for New Type of Air Machine

The smallest seaplane in the world, one of which is destined to form part of the equipment of every submarine in the French Navy, has just been delivered at Suresnes. Named The Pashcor, the policy plane is one of the first of many dozens to be constructed.

The machine rose from the water in 9 seconds and in a few minutes attained a height of 2,000 feet. In three minutes after descending Marcel Beson had separated the machine into many parts, ready to be packed aboard the submarine.

At a convenient point the submarine can rise to the surface where the seaplane, in the time necessary, can be assembled on deck and take the air. A brilliant future is predicted for this new type of air machine, for it is asserted that it can, return to the submarine after reconnoitering and be as speedily hauled aboard.

Pain in the Back

Yields to Nervine

If you have failed to secure relief from other remedies, rub on lots of Nervine. It is the most penetrating pain reliever on the market. Nervine acts quickly on small pains and is the surest remedy to get the big one. It's because every drop of Nervine rubs in, because it has the ability to sink in deeply that it drives away pain that ordinary oils and liniments won't touch. Large 25c bottles at all dealers.

Linens should be hung on the line so that the weight falls on the warp threads, that is, the threads running the long way of the cloth.

OUR WINTER WEATHER

A Trying Time for People With Weak Watery Blood

Canadian winter weather is a trying time for debilitated, run-down people. The close air of shut-up houses, lack of out-of-door exercise, the restricted diet of the season, all have their effect on weakened systems. There is always in other times the danger of severe colds, attacks of influenza, or the still more dreaded pneumonia.

There is always in other times of year, when a bountiful supply of rich, red blood is so necessary; and the one way to build up the blood rich and pure and thus avoid winter trouble is through the use of Dr. Williams' Pink Pills. If, unfortunately, you have fallen a victim to influenza, or other winter troubles, this same medicine will restore your health and strength. Among those who have proved the value of Dr. Williams' Pink Pills is Miss Margaret Pearson, R.E. No. 1, Chatham, Miss Pearson had passed through a severe attack of influenza and says: "It left me so weak and run-down that I could scarcely walk. Anemia set in and it almost seemed as if I would not pull through the winter. I grew so weak that the least exertion would bring on fainting spells. I was under medical treatment, but it did not help me. Then one day in our local paper I read an advertisement of Dr. Williams' Pink Pills. I decided to try them. By the time I had used three boxes I felt much better, and continuing the use of the pills it was not long before I felt better than I had been before the influenza attacked me. My rapid recovery surprised my friends, and when asked 'What did you do?' I would proudly say, 'Not my doing, but Dr. Williams' Pink Pills.' To me, at least, the pills have been worth their weight in gold."

As a precaution against winter ill take Dr. Williams' Pink Pills now. Sold by all medicine dealers, or sent by mail at 50c a box by Dr. Williams' Medicine Co., Brockville, Ont.

War Traces All Removed

There remain not a single shell hole in the Flemish countryside today and all the barbed wire, that nightmare of the infantry, has finally been rolled up. The deep wounds in the breast of the hills, once air-scarred, have healed wondrously. Not a ruin can be discovered from the one end of Belgium to the other. It is said half a million unexploded shells were taken from the soil.

Sweet and palatable, Mother Graves' Worm Expeller is acceptable to children, and it does its work surely and promptly.

Married men drive more carefully than bachelors, according to automobile insurance statistics. He travels fastest who travels alone, said the old proverb.

Athletes use Minard's Liniment.

So every package of Red Rose Tea is guaranteed to be worth the price printed on the package—(and a little more).

The best goods of any kind are usually the cheapest—this is particularly true of tea.

If you use Red Rose Tea in 1927 your tea bill will be less and your satisfaction greater.

"Every package is guaranteed."

RED ROSE TEA

"is good tea"

RED ROSE ORANGE PEKOE is extra good.

Did Not Fear 'Plane Trip

Makes no Difference Where One Dies Says Passenger

A War Department report from Panama tells of a recent incident in which an army airplane carried an aged native woman 200 miles back to die among her own people in the Chiriqui country of Panama after physicians at the Panama City Hospital pronounced her case hopeless.

As the plane prepared to start, an interpreter asked the patient-passenger if she was not afraid to ride in an airplane.

"When one must die, one dies," she replied with a shrug of her shoulders.

Protests Against Sale

The Nationalist Union of Denmark protested to the Norwegian government against the Danish plan to sell Greenland. The union declared a prominent Greenland department official recently left Copenhagen for Canada and it is feared he is conferring with Canadian authorities on the question of selling Greenland to Canada.

STOMACH MISERY,

GAS, INDIGESTION

"Pape's Diapepsin" Corrects Sour, Upset Stomachs at Once

"Pape's Diapepsin" is the quickest, surest relief for indigestion, gas, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief. Correct your stomach and digestion now for a few cents. Druggists sell millions of packages.

Might Need Help

A travelling salesman staying at a small hotel tried to catch an early morning train and asked the proprietress for the loan of an alarm clock. She produced the clock and remarked: "We don't often use it, and sometimes it sticks a bit, but if it doesn't go off, just touch the little hammer and it'll ring all right."

Some men manage to dodge enough work to keep a dozen people busy.

Gold Mines Profitable

Profit of the gold mines on the Transvaal, South Africa, for the month of November, 1926, amounted to £1,110,254, the secretary of the Transvaal Chamber of Mines, Johannesburg, has reported.

Children Cry For "Castoria"

Especially Prepared for Infants and Children of All Ages

Mother! Fletcher's Castoria has been in use for over 30 years to relieve babies and children of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving natural sleep without opiates.

The genuine bears signature of

Dr. J. C. Fletcher

Poisoned By Radium

Woman Was Infected While Painting

Radium poisoning, according to the Medical Examiner's office, was responsible for the death, in the Presbyterian hospital, New York, of Miss Elizabeth Webb, 25, of Waterbury, Conn.

It became known that Miss Webb had been employed for some time in painting clocks and similar objects with radium paint. She became ill and was removed to the hospital, where every effort was made to check the poison, which can have not an effect similar to that caused by cancer on flesh.

Children's Colds

Are best treated externally. Check them promptly without "dosing" by rubbing Vicks over throat and chest at bedtime.

VICKS VapoRUB

BAYER

Genuine

ASPIRIN

Proved safe by millions and prescribed by physicians for

Colds Headache Neuritis Lumbago
Pain Neuralgia Toothache Rheumatism

DOES NOT AFFECT THE HEART

Safe

Accept only "Bayer" package which contains proven directions.

Handy "Bayer" boxes of 12 tablets. Also bottles of 24 and 100—Druggists.

Aspirin is the trade name (registered in Canada) of Bayer Manufacture of Monacetyl-salicylic acid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, it is not to be confused with the Aspirin of other companies which will be stamped with their general trade name, the "Bayer Cross."

HAMILTON ESTABLISHED 1830 ONTARIO

The Law Of Progress Is Reflected In Age-Old Science Of Surveying And Mapping

The science of surveying is one of the oldest in the world, extending back through the mists of antiquity to the early days along the banks of the Nile and, for all we know, even farther. But, although truly venerable it is not yet too old to adapt itself to modern ideas nor to appropriate whatever it may add of service in the onward march of civilization.

The "gonioma," one of the most ancient of surveying instruments, used for angle measuring in the early Egyptian days, was constructed from the centre ribs of datepalm leaves bound together by lashings of datepalm fibre. From this crude beginning it is a far step to some of the highly specialized and efficient instruments in use today, in the evolution of which countless inventions and adaptations have been called upon, in their principles and application present a diversity about as wide as it is possible to conceive.

The transit-theodolite, for instance, the modern angle-measuring instrument and the logical successor to the gonioma, has been gradually evolved taking one idea from another store, until it has reached its present state. That this state is by no means perfect as yet is evident from a recent tendency to effect in it further changes looking toward a lessening of weight, at the same time with an increase in compactness, stability, and accuracy.

The transit-theodolite, however, although a very important instrument to the surveyor, is not his only instrument. Many classes of surveying may be carried on where this instrument is either not used at all or, if used, plays only a minor part. Indeed sometimes instruments are used in surveying that may not be generally thought of as surveying instruments.

One of these that may be mentioned is the barometer. This instrument measures the pressure of the atmosphere and is ordinarily thought of in connection with weather forecasting. But differences of atmospheric pressure also occur with differences in elevation. This principle is utilized to determine elevations of points above sea level, a matter of such vital importance in topographic mapping.

As another instance, shortly after Confederation, when the great area of Western Canada began to be opened up, our country was confronted with the necessity of providing maps of the rugged areas of the Rocky mountains. Here the usual methods of mapping were impracticable and expensive, and new means had to be devised. In casting about for these the camera was seized upon and by the application of methods devised by the late Dr. E. G. Deville, surveyor-general of Canada, methods which in their development were highly technical but in their application quite simple, this work went satisfactorily ahead. There might not, upon casual consideration, appear to be much in connection between the art of taking pictures and that of mapping the country, but the method evolved, namely that of photo-topographic mapping, has since been used in all parts of the world. In this method photographs are taken of the surrounding country from high points offering commanding views and by an inversion of the principles of perspective, these photographs are translated into topographic maps.

The recent application of the aeroplane to the science of surveying is fairly generally known. When man began to fly with a reasonable degree of success, it was not long before the possibilities began to be considered of substituting the moving aeroplane for the stationary mountain peak as a support for the surveyor's camera. By so doing the method could be applied to other than mountainous country, a most valuable feature when the extent of territory still unmappped in our country is considered.

Mathematicians attacked the problem and the aerial photogrammetric method of mapping was thus evolved, a method that has proven itself particularly adaptable to Canadian mapping needs. By this method also the topographical survey, department of the Interior, working in conjunction

with the Royal Canadian Air Force, and provincial survey officials, particularly in Ontario and Quebec, last year covered 49,000 square miles of territory, an area which by other methods would represent many years' work and tremendous expense.

Third Most Populous Nation

Soviet Russia Now Exceeded Only by China and India
The Soviet Union has become the third most populous nation in the world, being exceeded only by China and India. The latest census shows that it has a population of about 165,000,000.

Within 20 years the population of Russia has increased 30 per cent. The population of the old Russian empire was 182,000,000; but 25 per cent of that population was separated from Russia when Poland and the Baltic countries became independent, after the world war.

The greatest increase has been in the cities and towns, Moscow jumping from 1,100,000 in 1907 to more than 2,500,000, and Leningrad from 1,300,000 to 1,600,000. In Tashkent the population has increased 150 per cent within seven years. Russia is the largest country in the world geographically.

A Smart Daytime Frook

Smartly simple is the chic frook shown here. The bodice is slightly gathered to the two-piece skirt having inverted plaits at the front, back, and sides. The modish V-neck has an applied collar which would be very effective if made of contrasting material to match the trim cuffs on the long dart-fitted sleeves. Buttons, and the buckle finishing the front closing belt, are smart details of this attractive daytime frook. No. 1518 is for misses and small women and is in sizes 16, 18 and 20 years. Size 18 (36 bust) requires 3 1/2 yards 39-inch material, or 3 yards 54-inch, and 5/8 yard 39-inch contrasting material for collar and cuffs. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Game Conservation Needed

Urges Protection of the Fish and Game

Life of Saskatchewan

Need of taking advantage of the experience of other parts of America by conserving the fish and game life of the province while there is time, was urged upon the members of the Saskatchewan Fish and Game Protective Association, Saskatoon branch, by Fred Bradshaw, Regina, provincial game commissioner, and by George C. Macdonald, Prince Albert, Dominion fisheries inspector for Saskatchewan, at the annual game banquet of the association. It was pointed out that every eighth person in Saskatchewan had a car, every sixth a gun. Approving mention was also made of the proposed provincial legislation making shooting accidents and fatalities a matter for consideration under the criminal code.

Survey Vacant Lands

Vacant Property in British Columbia to be Used for Settlement Purpose

Estates in British Columbia from 4,000 acres down, many of which have been unproductive for 20 years, and most of which are owned by persons residing in England, are to be surveyed and reported on by a representative of the Canada Colonization Association to secure them for settlement. This report of the survey being made of vacant lands all over the West, T. O. F. Herer, manager of the association, stated in an interview at Winnipeg.

The British Columbia estates referred to lie mostly in the Columbia and Okanagan Valleys and close to Vancouver.

Fruit Production Lower

Figures Show Slight Decrease For Canada in 1926

Canada's total production of commercial apples for 1926 was estimated preliminarily at 2,550,000 barrels, valued at \$12,387,500, as compared with 2,942,000 barrels worth \$16,709,440, the finally revised estimate for 1926. The average value per barrel in 1926 is placed at \$5.25 as against \$5.80 in 1925.

These figures were announced by the Dominion Bureau of Statistics. The total value of Canada's commercial fruit production in 1926 is \$15,678,702, as compared with \$25,283,945 in 1925. The province of Quebec for fruits other than apples are not included in the estimate.

Scottish Settlers In West Plan To Establish Carding Mill To Manufacture Harris Tweeds

Sustained progress is evident in the "Clan Donald" farm colony in Northern Alberta established through co-operation between the Canadian Pacific Railway and the Scottish Immigrant Aid Society, which planted one hundred families from the British Isles there last spring. In preparation for the new settlers a house and barn was erected on each of the hundred farms and a well sunk. One hundred horses and three hundred cows were purchased and distributed, as well as the necessary farm machinery. With this auspicious start no time was lost in getting seriously down to work. Ten acres had been broken on each farm before establishment and this was rapidly supplemented, some of the new farmers accounting for fifty acres in the course of the season. In all some 3,000 acres were broken in the colony, so that a substantial harvest is forecast for the present year.

Some of the new settler families had received a year or two's practical training with Alberta farmers, but others were moved direct to the colony from their crafts in Northern Scotland and Ireland. Both have made gratifying progress, and while waiting for their first harvest have produced income in various ways. A number of settlers found work on the C.P.R. grade construction, while over fifty engaged in stock-raising during the harvesting season, earning an average of from \$5 to \$8 per day with an average run of twenty days. A number of new farms have made a success of chicken raising, and some have found turkey raising profitable. An average of two calves was raised by each settler, and arrangements were made for the exchange of all dry cows for fresh cows, so that the families were assured of milk for the winter months. Many families have managed to add other horses and cattle to those provided at the outset by the Society. Altogether a fair measure of success is considered to have attended the inaugural year of the colony and great satisfaction is expressed by the sponsors.

A most interesting development planned in the colony and other parts of Alberta where settlers from the Northern Scottish Islands are settled, definite progress upon which has been made, is the manufacture of "Harris Tweeds" for which the Hebridean crofters are famous in their native land. This manufacture is a traditional industry with these people, so that most of the Alberta settlers took out their spinning wheels with them and some their hand looms. On their own initiative they have manufactured some Harris hosiery which has been sold to the Hudson's Bay Company.

What is projected now by the Scottish Immigrant Aid Society is a cottage industry working in conjunction with a small industrial plant. The use of hand looms on the farms will be further encouraged, though these will be working only intermittently for the main part during the winter months. It is planned to establish a carding mill in the province, "Red Deer," the headquarters of the Scottish Immigrant Aid Society, being suggested as the most fitting and appropriate spot. The necessary buildings are already in the possession of the Society and the greater part of the not elaborate capital has been provided by philanthropic individuals.

The scheme, which has every prospect of success, is an admirable one and one calculated to advance the best interests of the present colonists and others to be moved. A necessary farm adjunct will be a small herd of sheep which is in line with the policy of sheep raising vigorously advocated in Western Canada. An excellent market is said to exist for Harris Tweeds. Such a cottage industry can be most efficacious in ensuring farm contentment, as keeping the newcomers on the land, providing the entire family with winter employment, and adding substantially to its revenue.

A gratifying success in its work has attended the gradual development of the Scottish Immigrant Aid Society. Through its instrumentality many splendid families have been moved from all parts of the British Isles and satisfactorily established in Western Canada, where they are making progress towards independence. The work is continuing, and in the present season it is expected that many additional families, carefully selected, will be moved from the British Isles and launched out upon Canadian farming careers in the same satisfactory manner.

Increase in Wool Clip

Eleven And a Half Million Pounds Marketed in 1926

Final estimates for the wool clip of Canada for the year 1926 place the total at close eleven and a half million pounds. Of this amount around five million pounds were used locally, the bulk of the clip in Quebec and certain new settlements in the West, consequently not reaching commercial channels. Of the remainder, about 50 per cent, or 3,850,000 pounds, was marketed on a graded basis through the medium of the Canadian Co-operative Wool Growers. This is a substantial increase over 1925, when 2,278,000 pounds were shipped to the Co-operative.

Southern Alberta and Southern Saskatchewan, where sheep are ranged over the prairies in large flocks, are the most concentrated sheep raising areas in Canada, and consequently 1,500,000 pounds of the wool handled co-operatively came from those two sections alone. Every province, except three—New Brunswick, Nova Scotia and Prince Edward Island—reported an increase in 1926 over the previous year.

Exports of Live Stock

Exports of live stock from Alberta for the year 1926 show a considerable increase over those of 1925, according to figures recently issued by the Provincial Department of Agriculture. In 1925 a total of nineteen thousand eight hundred horses and two hundred and sixty-three thousand, four hundred head of cattle were exported, compared with fifteen thousand, one hundred and twenty-two head of cattle exported in 1926. The exports were made in other provinces, the United States and to Great Britain.

Ornamental penmanship is a flourishing industry.

PREMIER COATES IN CANADA

The Rt. Hon. J. G. Coates, Premier of New Zealand, who also holds the portfolio of Minister of Railways, passed through Canada over the Canadian National Railways recently and while in Winnipeg he inspected the Transcona shops of the company and declared them to be the best railway shops he had ever seen. He was accompanied by J. H. Hunter, official secretary to the New Zealand Railways, and they stated that a number of features characteristic of the Transcona shops of the Canadian National Railways would be adopted by the New Zealand transportation system. The photo shows Premier Coates inspecting a piece of railway shop machinery.

C. N. RAILWAY ESTIMATES ARE TABLED IN HOUSE

Ottawa.—Hon. J. A. Robb, Minister of Finance tabled estimates of \$21,000,000 for the Canadian National Railways for the present fiscal year. The estimates are the same as were brought down last session less \$10,000,000 then voted.

An estimate for \$4,000,000 for the Canadian Government merchant marine was also tabled by Mr. Robb. This represents the main estimate for the Merchant Marine of last session less \$200,000 then voted. The total appropriation to the Canadian National and the Merchant Marine in the estimates is \$21,000,000.

They are classified as loans.

Five petitions asking for the transfer of the natural resources of Alberta to the province without interference, were presented in the House.

A pension not to exceed \$500 per annum for Canadian winners of the Victoria Cross in the Great War is suggested by T. L. Church, M.P., Toronto.

A bill to amend the Railway Act by the establishing of special freight rates on coal was introduced in the House by Mr. Church. It received first reading. The Toronto member said coal should be carried on the same special rate basis as grain and flour.

E. J. Garland, U.P.A., Bow River, has placed a resolution on the order paper declaring that Canada's prime minister should be under obligation to obtain the sanction of the majority of the House before advising His Excellency the Governor-General to dissolve parliament.

A measure to give financial assistance to the Royal Agricultural Winter Fair Association will be introduced by Hon. W. R. Motherwell, Minister of Agriculture.

Notice has been given by the Government of legislation for establishment of rural credits, old age pensions, for revaluation of Soldier Settlement lands, for the penny post on drop letters and abolition of tax on receipts. The legislation was before the House last session but failed to become law. Furthermore the Government is bringing down a bill for a loan of \$12,000,000 to the Montreal Harbor Commissioners and a bill to confirm the scheme of arrangement of August 26, 1926, with the holders of four per cent. debenture stock of the Grand Trunk Pacific Railway.

Immigration Shows Increase

January Report Shows More Arrivals Than in January 1926

Montreal.—As an indication that a substantial increase in immigration to Canada will be experienced this season it is stated by the Canadian National Railways that the Atlantic port of Halifax so far this year shows an increase of approximately 51 per cent. in comparison with arrivals during the similar period of 1926.

The month of January and the beginning of February is a period when large numbers arrive in the Dominion and an increase in the first weeks of the year is regarded as promising.

Ottawa, Liquor Commission Toronto, Ont.—Premier Ferguson's "strong man" for the Ontario Liquor commission will be the former president and chairman of the Canadian National railways, D. B. Hanna, the prime minister announced. The premier further announced that Mr. Hanna would be "battensured" by two commissioners, Stewart McClellan, former Conservative M.P., Ottawa, and Hon. R. J. Manion, Conservative M.P., for Fort William.

For Entertaining Queen Marie
Ottawa.—A modest item of \$180 is included in the statement of "unforeseen expenses," tabled in the house of commons. It represents an expenditure by Government House for entertainment for Queen Marie of Romania in Ottawa.

Went Shanghai Free Zone.
Peking.—It was reported here that the League of Nations may be asked to make Shanghai a free zone similar to Danzig. Great Britain was understood to favor the movement.

W. N. U. 1668

Byrd Enters Competition

Will Take Part in Trans-Atlantic Flight for \$25,000 Prize

New York.—Commander Richard Evelyn Byrd, conqueror of the North Pole, will compete this spring for the \$25,000 prize offered by Raymond Orteig for the first non-stop flight between New York and Paris. The New York Times says.

A Byrd monoplane of the Josephine Ford type, in which Byrd reached the top of the world, is now being built for the flight for use in the forthcoming flight. The new machine, slightly larger than the Josephine Ford, will be driven by three Wright whirling engines of 225 horsepower each.

Just when Byrd will start had not yet been learned. The Times says, although it is believed that he will leave in the late May or early June.

His plane will have a flying radius of at least 4,000 miles, providing a fair factor of safety in the 3,600-mile trip from New York to Paris. One-third of the distance will be over land.

On his coming flight Byrd may oppose Captain Rene Fonck, the French ace, Fonck and Lieut.-Commander Noel Davis, officer in charge of naval aviation of the navy department, are reported to be contemplating entering the race.

Commander Byrd will probably fly along the New England coast to Newfoundland and then along the great circle to the Southern tip of England and France.

May Visit Canada Later

Official Visit of King George Possible Says London Paper

London.—"It is to be hoped that Canadians will understand the real impossibility of King George's accepting the invitation to visit the Dominion in July," declares The Weekly Truth.

"A month's absence from England at that time of the year is so clearly out of the question that it is a wonder His Majesty should have been put in the position of having to refuse the invitation.

"Canada is near enough for the King to make an official visit one of these days," Truth continues, "but if it comes to that, so is Dublin. May we not hope that the day will come when a royal visit to the Irish Free State would be as agreeable to all parties as to any other of the British commonwealth nations."

War Expenses Increase

Expenditures Resulting From Great War Bear Heavily on Canada

Ottawa.—Canada's expenditures directly resulting from the Great War are not decreasing. During the fiscal year ended last March, the Dominion spent \$15,985,211 on pensions, claims, soldier land settlement and re-establishment, memorials and war graves. The sum represents a net increase of \$872,974 over the previous fiscal year. The figures do not include the interest on that part of the public debt attributable to the war.

These figures are published in the auditor-general's report.

Germans Play British Games

Believe Sport Makes Fine Nation Says Ambassador to Berlin

London.—Lord D'Abernon, British ambassador to Berlin, has returned to England, and states that the Germans are playing most British games because they believe that sport makes a fine nation.

Lord D'Abernon's statement has been verified by the decision of the German Reichstag to vote a sum of \$25,000 in aid of the German propaganda to discover the best possible candidates for the Olympic games next year.

Resented Wording of Sign

Miami.—For hanging out a sign in a novelty shop: "Selling out, going back North where men are men and rats are reasonable." R. Lewis Kaufman of Baltimore was convicted of disorderly conduct and sentenced to 30 days in jail.

Sending Cruiser to China

Rome.—The Italian cruiser, San Giorgio, according to the Fasces paper, will leave Naples for China about the end of the month. She will carry marines and possibly several units of Fascist militia.

REFERENDUM IN MANITOBA ON THE SALE OF BEER

Winnipeg.—Premier John Bracken gave the Legislature an outline of the Government's policy toward the proposed referendum in the province on the sale of beer.

The Government, he said, proposes to introduce a bill which before its passage may be worded to suit the parties in the Legislature. This bill will be submitted in the form of a referendum.

The premier was answering criticism directed against the Government during the course of the debate on the address in reply to the speech from the Throne, in which Opposition leaders had inferred that the Government was trying to avoid responsibility by submitting to the people a bill from some outside source.

Premier Bracken was emphatic in stating that a referendum on the beer question was justified.

Mr. Bracken outlined the Government's policy on immigration and colonization. He forecast the creation of a central agricultural development board, with sub-agencies throughout the province, to aid, direct and generally supervise settlement of vacant lands. He also intimated that a competent mining expert from the University of Manitoba would be engaged to direct the Government's work in assisting development of minerals.

Heart Disease Ranks First

New York.—Heart disease ranks first today among the causes of death, and if nothing is done to check the present situation it will claim as its victims one-fifth of the present population. These were the figures given recently by a physician who has examined thousands of people for a leading insurance company.

May Appeal to League

London.—May may inform the powers as soon as the League of Nations that desires the League of Nations to intervene in the Chinese situation, the Daily News says.

HARD FOR THE JUDGES

Anyone who thinks that a judge in a beauty contest in Saskatchewan has a sidecar has only to glance at the above pictures to have that impression corrected. The beauties who are pictured above are but four of a dozen beautiful young women who are candidates for the Queen's Crown at the Northern Saskatchewan Winter Carnival which is being held in Prince Albert, March 26 to 28. Incidentally, Miss Eagle and Miss Graham are Prince Albert girls; Miss Cuelnaer is from Leask, Saskatchewan, and Miss Mary Gaston from Shellbrook. Other candidates have entered from Saskatoon, Regina, Crosssarth, Blaine, Lake St. Clair, Kinistino, Wawak, Dummerby.

Being Queen of the Northern Saskatchewan Winter Carnival is no empty honor. She and her court will start the big dog derby which has as its main prize the silver challenge trophy donated by Premier King and she will be enthroned in the place of honor at all the other events including the ball to be held every evening in the armours. The carnival is the biggest thing ever attempted in Western Canada and the lady who will rule it with her sceptre will have to be every inch a queen.

The photographs are by the Canadian National Railways which are co-operating to make the carnival a success.

Proposed Creamery Merger

Matter is introduced in Saskatchewan Legislature by Premier Gardiner's Regina.—Premier Gardiner's announcement of the amalgamation of the Saskatchewan Co-operative Creameries, Limited, Moose Jaw, was made in the Saskatchewan Legislature. He moved the adjournment of the house in order to make his statement, which was received in tense silence. There was discussion on the statement and after the premier withdrew his motion for the adjournment, the house proceeded with routine business.

"The government has been made acquainted with the fact that the Saskatchewan Co-operative Creameries, Limited, had approached Caudela-Cramerries, Limited, with a view to an amalgamation and that negotiations with this object in view have been under way for some time," said Premier Gardiner.

"It is considered by those interested that the proposed amalgamation will be made to the operation of the new company in such a manner as to greatly benefit the dairy industry of the province.

"It will be necessary, if the amalgamation is consummated, for certain amendments to be made to the present Co-operative Creameries act. It is intended that the proposed new company shall operate under the name of the Saskatchewan Co-operative Creameries, Limited, and under the Co-operative Creameries act."

"In the event amending legislation being brought before the house an opportunity will then be offered for a full discussion of the whole matter."

Noted Singer Given Estate

Soviets Restore Part of Land Confiscated After Revolution

Moscow.—Departing from its unusual principle of nationalization, the Soviet Government has restored to Feodor Chalapin, noted singer, part of his 800-acre estate in the province of Yaroslavl, expecting that he will return to Russia soon. The estate, confiscated after the revolution, for the present will be occupied by Chalapin's wife and family, who are living in a flat in Moscow.

CIVIL SERVICE IS TO BENEFIT BY SALARY REVISION

Ottawa.—The Civil Service Commission, which has been holding a session, carrying out instructions of the Government for a report on salary revision, has completed its work. The report, however, which is about to be taken up by the cabinet council, may not be made public until it is considered by that body.

It is understood that a horizontal increase in salaries is recommended affecting all grades up to those receiving an annual salary of \$5,100. The change is proposed to apply both to the inside and outside service and the total increased expenditure entailed would be \$2,900,000 a year. Everybody is in line for an increase, both in the temporary and permanent classifications, and the extra money that is proposed to be provided is designed to absorb the costs of living bonus which was instituted some years ago and meanwhile has been subjected to different modifications. In some cases the civil servants will get the full amount of the bonus they originally received and in others they will not.

According to the classification, the increases vary from \$50 to \$150 a year. The lower grade employees get the larger amount. It is not proposed that the new schedule of salaries will be retroactive, but rather that they will date from the coming fiscal year. The report will be considered by the cabinet and if it is approved, the necessary financial appropriations will be made in the estimates to be submitted at the present session.

Insurrection in Portugal

Two Hundred Persons Reported Killed in Oporto

London.—Two hundred persons were killed in the fighting at Oporto, says a Daily Mail dispatch from Vigo, quoting a newly arrived traveler from the centre of the Portuguese revolt.

A bomb fell into the room in the Grand Hotel, occupied by the United States consular staff, but did not explode before. The room was wrecked.

Those killed during the course of the revolt included Lopes Teixeira, director of Diaro do Oporto; Alvaro Castro, Republican leader; General Nerton de Mattos, former war minister; General Jaime de Moraes and General Sousa Diaz.

Many of the most important buildings in Oporto, among them the public library and post office, were destroyed.

Britain Replies to U.S.

Considered Tantalizing to Rejection of U.S. Terms for Entering World Court

Geneva.—Great Britain has informed the League of Nations that she is replying to the United States on that country's world court reservations in accordance with the terms of the instrument drawn up in Geneva at the world court conference last year.

As this instrument did not accept completely the fifth United States reservation concerning advisory opinions, it is considered here that the British reply is tantamount to rejection of the conditions governing the United States' possible entry into the world court.

Large Sum Paid Depositors

Creditors on Home Bank Receive \$2,726,282 From Federal Government

Ottawa.—Home Bank depositors have received to date a total of \$2,726,282 from the Federal Government. A statement tabled in the House of Commons showed that during 1926 the department of finance paid claimants on the defunct bank a sum of \$1,898,413. In 1925 the amount paid to claimants was \$349,869.

Approves Slave Treaty

Tokio.—The Cabinet has voted Japan's adherence to the Geneva white slave treaty.

F. S. GRISDALE,
PHONE 141, OLDS, ALTA.

As a progressive Dairyman desiring to secure maximum profits from
my milk herd, I realize the necessity of adhering to an organized
schedule of care, feeding and handling.

Today's inventory, I have
decided that pure milk is
better than spoiled milk and
that I want no more cows
but pure and better milk
from each cow.

My first step should
be the selection of a
true type herd—
a selection which
should always com-
mand cream and
good judgment.

Proper selection of dams
also will bring the cow
revenue in more milk,
better milk and better
minerals.

The comfort of the
animal is important.
Thorough cleaning
sheds by periodic
scrubbing about stables,
udders and under-
lines during stable
months and all over
the body when turn-
ing out in the spring
will be part of my program.
Clean animal, clean milk with
low bacteria count.

The growth in the
number of cow keep-
ing associations con-
vinces me that mem-
bership in one is a good
thing. I place my as-
sociation full support
and co-operation.

Proper feeding is
essential. Therefore
I shall always pre-
pare a carefully
balanced ration
to my herd as
well as a plentiful
supply of pure,
clean water.

Any cow in my herd
suspected of being a
brawler or otherwise
lacking in necessary
qualifications shall under-
go a fair, but thor-
ough test. What I want
on my herd must come
back to me as a profit.

During the hot
months, whenever pos-
sible, I shall enclose my
herd with a cool,
clean, outside feeding
place, where they may
clear their coats in
shade and ruminate on
the benefits of being a
provident rather than a
parasite.

A good condition like that
pictured here shall never
be lost. In hot weather
keep, cool and keep cool-
ness. I shall clip and quickly
shed thoroughly by wiping with
a damp cloth.

A clean
barn, clean
stalls, clean
water at the
stalls, clean
and no milking
within an
hour of feed-
ing, my all
program
which I shall
enforce rigidly.

The dairy de-
mander that
bears my milk
must value
quality and
quantity as
much as I do.
They must care
on from the
point beyond
which I have
no control.

Then when my
milk is bottled I
shall know I am
rewarded for my
efforts. I shall
get more milk
and more money
for my milk and
the gospel of
clean and better
milk shall spread
throughout the
land.

Strange Romantic Love Adventures of the Slapper you know

Joanna
by H. L. GATES
Copyright 1925 by H. L. GATES
Published by arrangement with First National Pictures, Inc.

CHAPTER XXVII—Continued

He would have made his speculations and sought to hint of the mystery which was to be revealed upon the open air stage, but he was suddenly conscious of a stiffening of the slender body that stood close to him. He followed Joanna's gaze and saw two figures crossing the terrace which faced the Trianon.

John, in flannels and blue, his strong, well-set form bearing its new guise of easy confidence, stood for a moment, with Yvonne at the top of the terrace steps between two stone images. Yvonne was very youthful and beautiful in the orchid tones she affected for tennis and golf. The single golf stick John carried was evidence that they had come in from a round of holes over the little Amette fairway that stretched across the ravines and flat spaces of Cap Martin. Brandon saw that Yvonne looked often into the face of the man beside her; and that she rested her hand on his sleeve, and fluttered it about his wrist. And he saw, too, that Joanna watched, and that the marks of her teeth were redder than the flesh red of her lips.

Brandon reached down and found Joanna's hand. He gave her fingers a gentle pressure. As if something startled it, her body relaxed. And as if she were announcing the conclusion of some very deep deliberations, she said:

"I have decided to have the trolls roof that will be over the crowd when it gathers here for my little surprise, made with molasses blossoms. I must have them gathered. It will take a great many."

"Have you chosen them?" Brandon asked softly, "because you like their heavy, intoxicating perfumes, or because they reveal so many colors; and in their form are snake like?"

She waited a moment, and then said, irrelevantly, it seemed: "The perfume of molasses either steal one's senses or lull them. They seem to match so many people."

They went toward the house, but stopped at a bench under a natural shelter that enclosed a tiny garden. Brandon gently urged her onto the bench and sat beside her.

An Everyday Story

Francis Henry Cook

Francis Henry Cook

London, Ont.—"I was in a general run-down state of health. I had indigestion and my stomach was weak and so sore I could not bear to touch it. I got where I did not have any health at all, was not able to follow my usual line of work. I saw where Dr. Pierce's Golden Medical Discovery was recommended for stomach trouble so I decided to try it and it relieved me of my indigestion and my stomach, also the abdominal distention and built me up in health. I can highly recommend the Golden Medical Discovery to anyone who suffers as I did. It is excellent!"—Francis Henry Cook, 471 Elizabeth St.

MAY & JAMES
REGINA, SASK.
Established 1885

"Were we?" she asked, looking at him, coolly. "You were telling me that Yvonne is following the only honest path for a woman to take; that she is going straight to the goal of her desire. I believe you said that she must see some promise of novelty in stirring John's madness, and satisfaction in proving that she could go where only an angel, would be welcome. You had gone so far as to advise me that it was time I drop my pretences and take love as I find it. I didn't know you were judiciously trying to get anywhere."

Brandon, who had remained on the bench when the girl stood, rose, if there was a mask to drop his fell for a fleeting moment. He caught Joanna's eyes and swung her about until she stood close and looked into his face. But when he spoke his voice was like the smoothness of the motor in her Daimler car. It purred. And it was insouciant.

"I said all of that, and more," he murmured. "I said that you were a cheat, an impostor in the order you have chosen to enter. You are playing every night and day of your life with flame, and foolishly think you aren't being burned, but you are. The deadliest burning, you know, is the kind of an invisible fire that runs deep before it pains. You are being scorched by the ridicule of those who know that you only pretend that you don't understand Konstantin, Michael, and the others, and the contempt they have for one who tries to be discreet but is only deceitful. We had got that far."

For an instant anger flamed in the gold brown eyes that looked up into his; she trembled, and the tangerine glow came into his cheeks. Then she was calm, again, and inscrutable.

"But what's further progress?" she mocked him. "You read me a lesson from a book, I learned by heart, long ago—when I was twenty-seven of the silk. It used to be, you know, that if we made ourselves into a wellcome sign we might as well say, 'come in.' We've learned all that now. And we know when to say 'come in' and when to say 'go to the devil.' How much further did you think to go?"

He still spoke softly; still reminded her of the low hum of the motor in her car. "Far beyond all of that, my dear Joanna. Up to the very edge of all you can believe." Suddenly his manner changed. He dropped the hand he had held with a tight nervous clasp. His smile came back to the corners of his mouth. He spoke airily. "But the moment has fled, hasn't it?" he exclaimed. "You must not profess love and make its demands and propose its bargains when tempers are out of tune; should they?"

She regarded him from half closed lids before she spoke. Then she said:

"You are the cheat, you know. Be-

19—Nominations of Inga Councilors.
25—Girls' Club Concert and Dance, Wudel's Hall.
26—Elections for Inga Councilors.
28—Mocklenburg, eye specialists, at Stony Plain.
March 1—John Mayer's Auction Sale at Golden Spike.
1—Muskrat season opens.

Stony Plain and District.

Concert and dance February 25, in Wudel's hall, by the Girls' Club.

Mr Val Mayer, of Golden Spike, is holding a clearance sale on Sat., Feb. 19.

Mr J Malloch had recovered sufficiently from the injuries received at the recent railway crossing accident to be taken, on Sunday, to his home in Stony.

A program which should prove very entertaining is being prepared for the concert at Muir Lake Community, billed for tomorrow evening. A dance will follow, for which a good orchestra has been engaged.

Mr Aug Meredith shipped two cars of hogs from Stony on Thursday, and one from Carvel on Friday.

Mr Meredith is billed to ship a car of hogs from Duffield Friday Feb. 25.

Mr Albert Willie, a farmer of the Comet district, was kicked in the side by a horse on Sunday last, and was removed to Edmonton for treatment.

John Miller, son of Conrad Miller, of Glory Hills, was brought home Friday from an Edmonton hospital, where he had been recovering from a broken leg.

Mr Liddle, of the Canadian Bible Society, will make a showing of pictures and give an address this evening (the 17th) at the Glory Hills Reformed Church.

A very nice party of young people assembled, on the evening of the 4th, at the home of Mr and Mrs N M Carmichael, Rosenthal district, to participate in the celebration of the anniversary of the natal day of Miss Mary, their daughter. This popular young lady was the recipient of numerous mementoes from her friends.

Mr Hadley of Styal, a former resident of Stony, is under the doctor's care at present, with but faint hopes of his recovery.

On Thursday afternoon last while two young men of Highvale district, Frank Quigg and James McLean, were out hunting lynx, they came across the track of an animal in the snow. They agreed to separate and circle a clump of brush with the intention of getting the animal between them. Shortly after this, a shot was fired, and Frank Quigg, keeled over, shot thru the left breast. He had been mistaken for the animal, and shot by his friend. The body was taken to his home and the police notified. Constable Mantle from Lac Ste Anne and Constable Davis, Evansburg responded, and made an investigation. Deceased was a popular young man in his district, and his untimely taking off is generally regretted. The funeral took place on Sunday, and was attended by a large number of friends of the family.

FARM FOR SALE

The West Hall Sec. 16-22-1W5. This is an improved farm, with about 110 acres under cultivation, balance easily cleared and broke. For further particulars apply to F. W. LUNDY, Stony Plain.

Spruce Grove News

Local farmers are continuing to haul grain to the Grove elevators in large quantities.

Mr Jespersen will soon be seen in his new Chrysler sedan purchased from Dave Bell.

Mr McKen was a business visitor to the City on Monday.

Mr Mair is making good progress toward recovery, in an Edmonton hospital, after his operation.

Not much interest is being taken in the forthcoming municipal elections.

Wolf and Coyote pelts must all pay the tax. Confirming to the practice adopted in other western provinces, the Alberta Provincial Game Department has now decided to add to the list of fur-bearing animals on which a tax must be paid, the wolves of the province. These include the timber wolf, the grey wolf and the prairie wolf or coyote, for all of which pelts in future a tax of 25c must be paid.

Wheat Pool News Notes.

New contracts for the Alberta Wheat Pool will shortly be distributed, and with them will go contracts for the coarse grain pool. Providing sufficient response is given to the campaign by Alberta farmers, a coarse grain pool will be launched.

J E Custus, a farmer near Calgary, who was the first man in Canada to sign a Wheat Pool contract, will be given the honor of signing the first contract of the new series.

Two hundred and four new members signed Wheat Pool contracts during the month of January. This is double the number enrolled in Jan. 1926.

W A McLeod of the Wheat Pool represented that organization, at the meeting of the National Research Council held in Winnipeg, to consider the problem of Tough Grades and loss incurred by farmers thereby.

Honored by the Pope.

Hon. Chas. Stewart, Minister of the Interior, has received a Diploma and Medal of Honor from the directing committee of the Vatican Missionary Exposition of Rome, and the gratitude of His Holiness Pope Pius XI, as a token of paternal gratitude for devotion shown.

The diploma is a handsome one, and in Latin states that it is bestowed on Hon. Chas. Stewart, Minister of the Interior in the Canadian Government, for merit. The medal of honor is a silver one, and on one side the features of His Holiness stand out. Appropriate expressions of gratitude are engraved on the medal.

Mr Stewart, who is an Anglican in religion, was somewhat surprised at the honor bestowed upon him, and said the only reason he could account for it was on account of the happy relationships which had existed between his department and the Oblate missionaries in connection with their work in the Indian missions. "The work of the Oblate Fathers has been very successful," said Mr Stewart.

Mr Stewart pointed out that 51 per cent of the educational work done among the Indians of Canada was done by the Oblate Fathers. "They do a wonderful work," he added.

Here and There

During the year 1926 about 3,500 live foxes of an average value of \$300 each were reported by six farmers of Prince Edward Island. They also sold about 20,000 fox skins at an average price of \$100 each, so that the fox farming industry in the province has yielded a revenue of about two million dollars.

The Forest Service of the Department of the Interior, through the forest nursery stations at Indian Head and Sutherland, sent out 5,612,245 little trees for planting on the prairie farms, during the season of 1926. Since the beginning of this work in 1901 the total number of trees so sent out has been a little over 87,500,000.

The Canadian Pacific liner S.S. "Montroyal" sailed from New York recently on her eleventh cruise to the West Indies, carrying about 350 passengers from all parts of Canada and the United States. The cruise will occupy four weeks, with the liner stopping at fourteen ports in the West Indies, the Mainland of South America and the Panama Canal zone.

Announcement was made at Canadian Pacific Railway headquarters in Montreal to the effect that Charles Edward Phelps, formerly city passenger agent of the company at Washington, has been appointed general passenger department, rail and steamship lines, Washington, D.C. Mr Phelps has been serving the Canadian Pacific from Washington since 1916.

Fifty Hebridean and Northern Irish families will be established in a new colony at Saddle Lake, early this spring. This will be the second settlement of its kind in this province—the first having been established north of Vermillion, Baulding, now being erected on fifty farms at Saddle Lake and it is expected that new arrivals will take over holdings there just as soon as necessary arrangements can be made.

Thirty members of prominent industrial, social and athletic groups in Detroit, travelling C.P.R. under the auspices of the Detroit Athletic Club, took a week's winter trip to Quebec for the purpose of enjoying the seasonal sports. They stopped at the Chateau Frontenac in Quebec City and stopped at Montreal and Ottawa to see their N. H. L. hockey team, play Montreal Maroons and Ottawa Senators.

Donald B. McMillan, noted Arctic Explorer, gave his first Canadian lecture on the North Pole and regions adjoining, at Montreal recently. Mr. McMillan showed some remarkable slides of brilliant Arctic flowers which grow during the brief Polar summer. He also exploded the common belief that Eskimo women are not beautiful, showing pictures of some that might have posed for the movies.

Quick work on the part of the C.P.R. investigation department and the honesty of a Red Cap covered an American \$500 bill for its loss. B. S. Nauer, public accountant of New York, recently, Mr. Nauer pulled it out of his pocket in getting some small change and it fell to the floor of the concourse of the Montreal C.P.R. station. The Red Cap picked it up and handed it to the station master. When Mr. Nauer made enquiries, a few minutes later, it was handed to him. He gave the Red Cap the handsome tip of \$100.

The official visit to Canada of the Gentlemen of His Majesty's Free Chapel of St. George, in Windsor Castle, and of the boy choristers of Westminster Abbey, who are giving song recitals across Canada from Fredericton to Vancouver and back, is made with the approval of His Majesty the King. They arrived at Saint John on the Canadian Pacific liner Montroyal and travelled C.P.R. across the Dominion, giving their first recital at Fredericton and their second at Winnipeg. Their visit is more than a mark of inter-empire courtesy; it is a gesture that should do much to help the fuller realization of possessions common to Canada and Great Britain.
